SILO & STORAGE TANKS

Reconditioning of storage tanks includes stripping and prime painting of painted surfaces, pressure testing of heat transfer surface, complete teardown and repair of agitator drive systems, elastomer/seal replacement, cosmetic polishing as necessary of stainless steel surfaces, rebuilding of any inlet or outlet valves, and loosening of all adjustable legs. Loading on a flatbed carrier is included in the purchase price.

HOMOGENIZERS

Reconditioning of homogenizers includes stripping and painting of painted surfaces, complete teardown and repair of drive systems including total bearing replacement, motor bearing replacement with additional motor repairs as necessary, elastomer/seal replacement, new plungers, regrinding and/or replacement of pump and homogenizing valves, repair and/or replacement of HVA systems, installation of new oil coolers, cosmetic polishing as necessary of stainless steel surfaces, and loosening of all adjustable legs. Water testing of all systems is standard. Tools that are unique to the machine are provided. Minimum capacities may require optional lower rpm motors or VFD's that are not included in published list prices. Shrink wrapping and loading on a flatbed carrier is included in the purchase price.

TERMS OF SALE

All prices are FOB Hazleton, PA and subject to prior sale.

Prices include reconditioning with the exception of those described differently.

No warranty is expressed or implied unless received in writing from Rowlands Sales Co., Inc.

Any returned material must have prior authorization from Rowlands and may be subject to restocking and/or return freight charges.

All sales or use taxes are the responsibility of the purchaser.

Delivery is available at an additional charge. Prepaid freight shipments via ICC carriers, unless paid in advance, will be invoiced at cost plus a 15% fee and are payable by federal law within 10 days of shipment.

Equipment purchased in "as is" condition is subject to lower pricing and inspection is urged before purchase.

Most skidding or crating is subject to additional charges. Skidding and banding, domestic crating, or export packing are an additional 1%, 2%, or 3% of list price respectively.

Export documentation and/or irrevocable letters of credit may require a service fee.

Prices and specifications subject to change without prior notice.

Terms are 50% deposit with order, balance upon shipment. **Orders will not be processed without deposit and required samples.**

All delivery times are approximate and quoted from receipt of deposit and required samples rather than receipt of order.

Rowlands
INNOVATIVE FLUID SOLUTIONS™

Over the past 47 years, Rowlands has engineered, designed, and installed fluid systems for numerous name brand dairy, food, beverage, and pharmaceutical companies throughout the world. Rowlands offers innovative ideas, combined with dedication to creating projects, which have been uniquely designed, engineered, and fabricated for our clients around the planet, by way of the following services:

New and Reconditioned Machinery

Rowlands can provide a complete myriad of new equipment, from some of the most respected companies in the food and sanitary processing industry.

Or, we can provide used – reconditioned machinery from our extensive six and a half acre warehouse, backed by the Rowlands guarantee.

Design and Engineering

Our designers and engineers work as a team when studying a customer's specifications and goals. Whether you are looking to expand a production line or start a new bottled water or milk plant – Rowlands is the right choice.

Fabrication

Our experienced team, including ASME certified high-purity welders, are able to meet your needs – whether it be a small custom fitting, a complete skid system, or anything in between.

Field Installation

Our experienced field service and installation crews, have completed projects throughout the United States, Canada, Mexico, Europe and South America. These have included simple piping projects, rigging of machinery - such as silos, processors, and homogenizers, and complete plant design and start-up services – always on-time and within budget!

Start-up Services

Whether purchasing a single piece of machinery or an entire project, Rowlands can provide you with start-up services, including on-site training for your operation and maintenance staff.

Turnkey Systems

Rowlands offers complete turnkey systems – including design, fabrication, testing, installation and training – offering you one-stop service with peace of mind.

24/7/365

Rowlands offers round-the-clock service and support – often including after hours emergency technical support, as well as the ability to ship parts from our vast inventory at all hours of the day!

Spare Parts

Rowlands offers an extensive stock of parts and supplies, with an inventory of over 22,000 items. Parts that are at your fingertips, when you need them most.
